3-D Hairstyles

Virtual Hairstyles offers you the opportunity to observe your chosen hairstyle from many different angles. Rest assured that your hairstylist will create the perfect cut for you.

The end of “ShoFr&LoBa”

You can count on Virtual Hairstyle to show you what is in. With the actual hairstyles, hats, glasses, make-up designs and accessories that are currently in vogue, you are guaranteed to be absolutely trendy. You no longer have to fight with your hair to achieve the perfect look, because now you have a picture-perfect model of what to expect.

Never fuss with curlers again!

With this program you are able to tease your hair over and over again until you get it the way you want it. You no longer have to spend countless hours doing your hair.

“Hair” – How and where you want it!

Play with the hairstyles, hats and all other accessories, positioning them how and where you want them. Picking your own colours is also a possibility, and whenever you don't like something simply selete it and try again!

Whenever you decide to change your hairstyle again, you know that you can't go wrong with Virtual Hairstyle. Simply scan a photo of yourself or download from a database, digital camera or video camera.

Create the perfect look! Customize your hairstyle with different styles, lengths or colours and you're finished! The perfect look for every occasion is right at your fingertips – classical or sporty, romantic or festive, seductive or simply laid-back. Virtual Hairstyle has more than 2,500 templates which will amaze you.
