ZoneAlarm makes the A-list!

Manacomm, Australia's favourite software publisher, is pleased to announce ZoneAlarm Internet Security Suite 6.5 as the recipient of the A LIST Award from PC Authority's Labs Reviews, as reviewed in the October issue of PC Authority Magazine.

Following its significant update from version 6, ZoneAlarm Internet Security Suite 6.5 features impressive improvements and additions to the already accomplished security suite package. As a PC Authority recommended product, it boasts increased performance ratings including; detection rate from 91 to 96%, removal rate was 84, now up to 91%, and blocking has also increased, from 70 to 77%. Overall, ZoneAlarm received a five-star rating with full marks for its feature heavy, easy-to-use interface.

Manacomm's Director of Publishing, James Mackay, attributes ZoneAlarm's successful review to the "sophisticated programming that satisfies both novice and expert computer users' security needs. ZoneAlarm is the complete internet security package and a trusted name in the industry."

New features in ZoneAlarm Internet Security Suite 6.5:

- The new spy site blocking feature prevents spyware gaining access to the PC by blocking spyware distribution websites.
- Handy game mode stops security alerts from interrupting gameplay, without suspending protection.
- The improved Operating System Firewall now features an AlertAdvisor to give you more information about your choices.
- SmartDefense™ Service automatically adjusts your security settings for maximum protection.

ZoneAlarm Internet Security Suite 6.5 retails at \$99.95. Other products in the range include, ZoneAlarm Pro 6.5, ZoneAlarm Anti-Spyware 6.5, and ZoneAlarm Antivirus 6.5. All products are available from major retailers.
