

Press Release

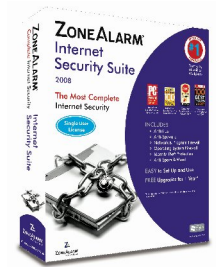

November 2007

ZoneAlarm Lead the Way in Internet Security

Manacomm, Australia's favourite software publisher, is pleased to announce the release of the 2008 range of ZoneAlarm Internet security options from Checkpoint.

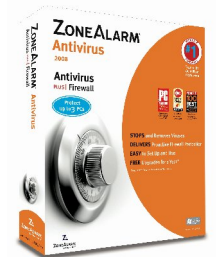

ZoneAlarm's new award winning antivirus engine and instant detection software continually finds and removes viruses, even new viruses others miss. While the critically acclaimed Network and Program Firewall delivers multiple layers of invisible protection.

"Our ZoneAlarm security products draw a new line in the sand when it comes to Internet security and antivirus software", comments James Mackay, Manacomm CEO. "These flexible and robust products fill the dynamic void in Internet security created by a changing global environment."

Features of ZoneAlarm Antivirus 2008

- Award-winning Virus Scan, Recognition and Removal.
- Award-winning Network and Program Firewall

In addition to Antivirus, ZoneAlarm Internet Security Suite 2008 also boasts:

- Advanced Anti-Spyware
- Identity Theft Protection
- Auto-learn – Hides unnecessary security alerts by learning the programs you use.
- Anti-Spam and Anti-Phishing
- Parental Controls – Prevents children from viewing inappropriate content.

The ZoneAlarm 2008 range presents the cutting edge of Internet security and protection. Available at all major retailers.

ZoneAlarm Internet Security Suite 2008 (single user) RRP \$89.95, (3 user) RRP \$99.95

ZoneAlarm Antivirus 2008 (3 user) RRP \$49.95
